A WORLD OF SERVICES

WHO WE ARE

IMOP is dedicated to the manufacture and sale of all types of **attachments, hydraulic breakers, spare parts for hydraulic breakers, tools** for breakers, **final drives, rubber tracks** and **undercarriage parts** for public works machinery compatible with the main brands of the market.

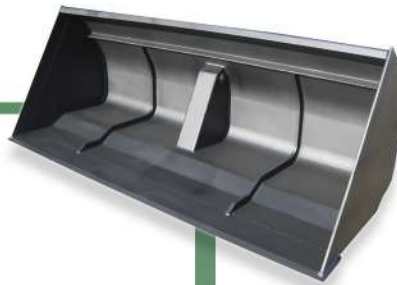

Our experience of **more than 25 years** in the sector together with the most advanced technology allows us to provide an agile and quality solution to your needs.

ATTACHMENTS

CLEANING

HIGH DUMP

SKELETON

REINFORCED

BUCKETS

4x1

SCREENING

MIXING

TILT CLEANING

The IMOP group offers a wide range of attachments for earth moving public works machinery that allow your equipment to be much more versatile, making your **investment profitable**. Available with **standard pin system, Klac system, Takeuchi system, welded pin system...**

QUICK COUPLERS

We have quick mechanical and hydraulic couplers!

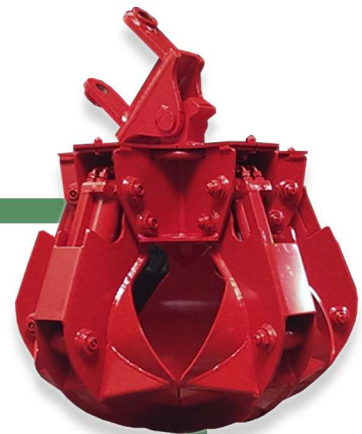

ATTACHMENTS

AUGERS

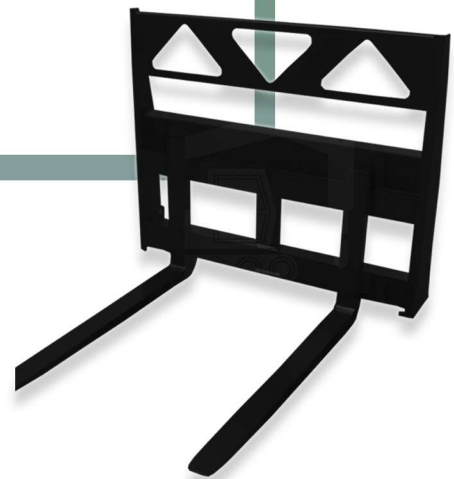

BUSH CUTTERS

POLYP GRABS

VACUUM LIFTERS

PALLET FORKS

SWEEPER BUCKET

Manufactured with top quality materials and with double-layer alloy steel, they offer great strength at the base and increase rigidity and wear resistance, **guaranteeing a long life.**

FINAL DRIVES

Available for...

VOLVO

SAMSUNG

KOBELCO

HYUNDAI

KOMATSU

Kubota

TAKEUCHI

YANMAR

NISSAN

... y muchas más

We supply **new final drives** for more than 800 models of mini excavators and excavators, for a weight from 0.8 to 45 tons.

Why renew your engine? Because it will undoubtedly be **cheaper in the long term** due to our value for money, and you will notice the quality from the first moment.

MOTOR SPARE PARTS

The **engine spare parts** are essential to extend the life of your machine.

We provide a wide range of replacement engine parts for heavy duty engines: cylinder blocks, pistons, pumps, injectors, crankshafts...

HYDRAULIC HAMMERS

Technical characteristics:

- Operating weight: from 75 to 1,350 kg
- Tool diameter: from 40 to 120 mm
- Oil flow: from 13 to 160 l / min
- Working pressure: from 95 to 140 bar
- Hit energy: from 70 to 3,000 joules
- Required power: from 6 to 50 hp
- Maximum noise level: up to 90 db

▶ A complete range of powerful, precise and resistant hammers, the result of high technology and top quality materials.

TOOLS

IMOP Group offers a **wide standard and special range of tools** for hydraulic breakers compatible with all brands on the market.

To guarantee an adequate tool, we have strived to offer a product that guarantees the desired results through a heat treatment applied to the materials used for the **hardening, increase in resistance and elasticity** of the tools offered to our customers.

HYDRAULIC BREAKER SPARE PARTS

The spare parts of IMOP hydraulic breakers offer a **long resistance and durability** to your hammer even in the hardest circumstances. They are of unmatched quality due to the combination of **experience** and the **advanced technology** used for the development of our spare parts.

UNDERCARRIAGE PARTS

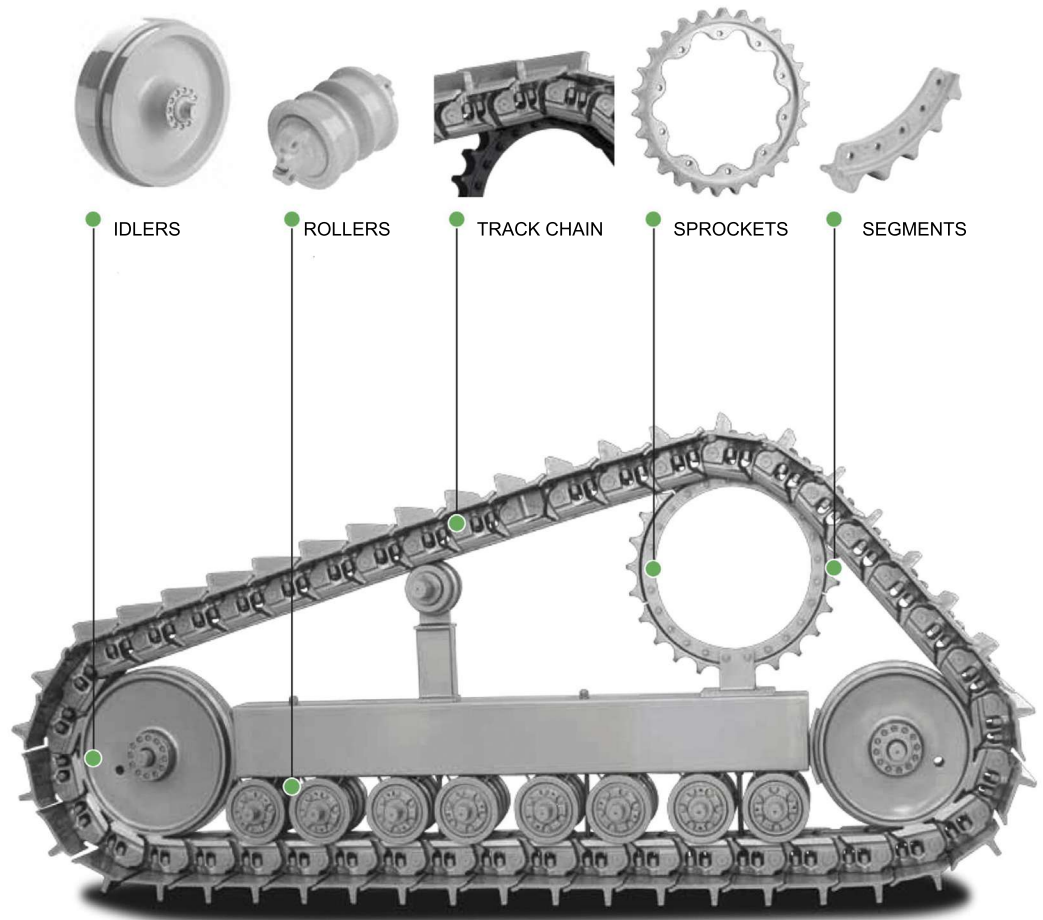

RUBBER PADS

TRACK SHOES

SCREWS

IDLERS

ROLLERS

TRACK CHAIN

SPROCKETS

SEGMENTS

SLEWING RINGS

IMOP Group is able to design and manufacture **slewing rings** and solutions that meet specific customer demands. Our experienced team will assist customers to choose the optimal solution that we will produce.

All the slewing rings are manufactured under **strict quality controls** according to ISO regulations.

RUBBER TRACKS

Our technical department is constantly working on the development of new treads to increase the safety, adherence and durability of the tracks.

▶ The **continuous steel cord system** increases the strength of the rubber tracks. The rubber is 40% more robust, so the track lasts much longer, thus reducing customer costs.

The chains are manufactured with a mixture of rubber, both natural and synthetic, which is subjected to special treatment during various stages of manufacture.

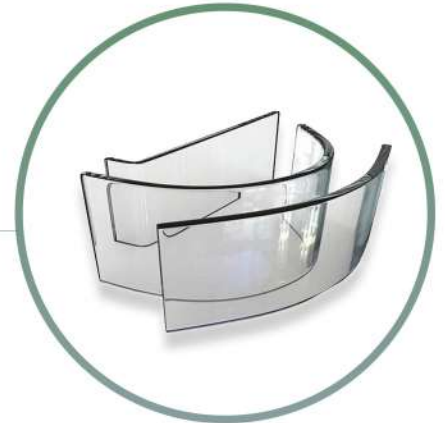

OTHER PRODUCTS

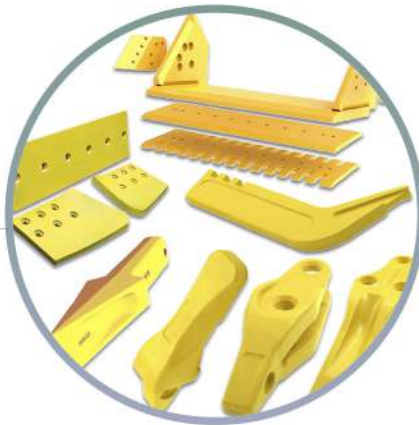

▶ BRUSHES ●

▶ GLASSES ●

▶ WEARING ●

▶ HYDRAULIC SEALS ●

▶ TIRES FOR SKID STEER LOADERS

Tires available with different treads, specific for skid steer loaders: **MHD**, **MT** and **MTA**.
